अध्यक्षको मन्तव्य

आदरणीय शेयरघनी महानुभावहरू,

मुलुकको पहिलो वाणिज्य बैंकको रूपमा वि.सं. १९९४ साल कार्तिक ३० गते स्थापना भई निरन्तर सेवा प्रदान गरिरहेको यस नेपाल बैंक लिमिटेडको ६४ औं वार्षिक साधारण सभामा उपस्थित सम्पूर्ण आदरणीय शेयरधनी महानुभावहरू तथा अतिथि महानुभावहरूमा सञ्चालक समिति साथै मेरो व्यक्तिगत तर्फबाट हार्दिक स्वागत गर्दछ ।

स्थापनाकालदेखि करिब दुई दशक केन्द्रीय बैंकको जिम्मेवारी समेत बहन गरेको यस बैंकले बैंकिङ्ग शून्यतालाई चिदैं मुलुकको बैंकिङ्ग प्रणालीलाई संस्थागत बनाउन साथै पूँजी निर्माणमा खेलेको भूमिकाको इतिहास साक्षी छ । बैंकले संस्थागत कर्जा लगानीका साथै प्राथमिकता प्राप्त कृषि; उर्जा; लघु, घरेलु साना एवम् मफौला उद्यम; विपन्न वर्ग क्षेत्रमा समेत कर्जा लगानी गर्दै आएको र क्रमशः आफ्नो लगानीका क्षेत्र तथा दायरा विस्तार गर्दै लगेको छ । त्यस्तै, बैंकले सहुलियतपूर्ण कर्जाको माध्यमबाट स्वरोजगार निर्माण, उद्यमशीलता विकास तथा रोजगारी सिर्जनामा समेत योगदान पुऱ्याउँदै आएको छ ।

पिछल्ला केही वर्षहरूबाट प्रविधिमा आधारित ग्राहकमैत्री सेवा प्रवाहमा जोड दिँदै आएको यस बैंकले दिगो बैंकिङ्ग अवधारणा अन्तर्गत रही आफ्ना गतिविधिहरू सञ्चालन गर्दै आएको छ। संस्थागत सुशासनलाई सदैव केन्द्रमा राख्दै आएको यस बैंकले नियमनकारी निकायका निर्देशनको परिपालना तथा सरोकारबालाहरूको हित संरक्षणमा आगामी दिनमा थप जिम्मेवार भई अधि बढ्ने विश्वास समेत बैंक सञ्चालक समितिको तर्फबाट यस सभा समक्ष व्यक्त गर्न चाहन्छ।

अधिल्लो आर्थिक वर्षमा कायम सिञ्चित मुनाफाबाट रू. १ अर्ब ७२ करोड ८७ लाख बोनस तथा नगद लाभांश वितरण गरिएको साथै नियमनकारी व्यवस्था बापत रू. १ अर्ब ८१ करोड ४४ लाख नियमनकारी कोषमा समायोजन गरिएको छ। यसका साथै विगतका वर्षहरूमा Further Public Offering (FPO) बाट प्रिमियम मूल्यमा शेयर जारी गरी प्राप्त भएको रक्तम मध्येबाट बोनस शेयरको रूपमा वितरण गरिएको रक्तम बापतको कर आयकर ऐन २०४८ मा भएको व्यवस्था बमोजिम रू. ९७ करोड ७२ लाख दाखिला गरिएको तथा नेपाल राष्ट्र बैंकको निर्देशन बमोजिम रू. १ अर्ब १९ करोड साधारण जगेडा कोषमा सारिएको कारण आर्थिक वर्ष २०७९/८० मा वितरण योग्य सिञ्चत मुनाफामा उल्लेख्य गिरावट आउन गएको छ। फलस्वरूप पिछल्ला चार वर्षमा शेयरधनीहरूलाई स्वस्थ्य लाभांश वितरण गरिरहेको

बैंकले यस वर्ष शेयरधनीहरूलाई कुनै प्रतिफल दिन नसकेकोमा व्यहोरा सभा समक्ष जानकारी गराउन चाहन्छु। यस परिस्थितिलाई शेयरधनीहरूले बुक्तिदिनु हुनेछ भन्ने विश्वास लिंदै आगामी वर्ष यस प्रकारको परिस्थिति नरहने विश्वास समेत शेयरधनी महानुभावहरूलाई दिलाउन चाहन्छु।

आगामी दिनमा बैंकको डिजिटल बैंकिङ्गको दायरा तथा आयातनलाई थप फराकिलो बनाउँदै लैजानुपर्ने चुनौती रहेको छ । त्यस्तै, युवा पुस्तालाई बैंकको सेवाप्रति आकर्षण गराउने, कर्मचारी तथा सेवा प्रवाहमा सुशासन तथा स्वअनुशासन कायम राख्ने साथै विद्यमान भौतिक सम्पत्तिको समुचित उपयोग गर्नु बैंक सामु देखिएका चुनौतीहरू हुन । त्यस्तै, मर्जर पश्चात् बासलातको आकार तथा सञ्जालमा ठूला भएका नीजि क्षेत्रका बैकहरू सँग प्रतिस्पर्धा गर्नुपर्ने कार्य चुनौतीपूर्ण रहेको छ । उल्लिखित चुनौतीहरूको सामना गर्न बैंक सक्षम हुने विश्वास सञ्चालक समितिको रहेको छ ।

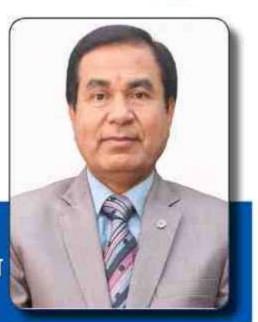

अन्त्यमा, बैंकको व्यवसाय विस्तार गर्न साथै राज्यले लिएका नीतिहरू बीच तादात्म्यता मिलाउँदै बैंकको व्यावसाय विस्तार गर्न साथै सम्पूर्ण सरोकारवालाहरूको हितको संरक्षण र सम्बर्द्धन गर्ने दिशामा बैंकका गतिविधिहरू निरन्तर जारी रहने प्रतिवद्धता व्यक्त गर्न चाहन्छु । बैंकको व्यवसाय विस्तार र सेवा प्रवाहमा सधैँ साथ र सहयोग गर्नुहुने शेयरधनी महानुभावहरू, ग्राहक महानुभावहरू, नेपाल सरकार, नियमनकारी निकाय, ट्रेड युनियनहरू तथा बैंकका कर्मचारी लगायत सम्पूर्ण सरोकारवालाहरूमा हार्दिक कृतज्ञता ज्ञापन गर्दै भविष्यमा समेत यस प्रकारको मार्गदर्शनको अपेक्षा गर्दछु ।

प्रमुख कार्यकारी अधिकृतको प्रतिबद्धता

आदरणीय शेयरधनी महानुभावहरू,

नेपाल बैंक लिमिटेडको ६४औं बार्षिक साधारण सभामा उपस्थित सम्पूर्ण आदरणीय शेयरधनी महानुभावहरू, सञ्चालक समितिका अध्यक्ष तथा सदस्यज्यहरू तथा उपस्थित अतिथि महानुभावहरूमा नेपाल बैंकको व्यवस्थापन तथा मेरो व्यक्तिगत तर्फबाट हार्दिक स्वागत गर्दछ ।

नेपाल सरकार र निजी क्षेत्रको साभोदारीमा स्थापना भई अविच्छिन्न रूपमा बैंकिङ्ग सेवा प्रदान गरिरहेको नेपाल बैंक स्थापनाको ८७औं वर्षमा रहेको छ । बैंकिङ्ग ईतिहासको यति लामो यात्राको ऋममा नेपाल बैंकले आफुलाई सबल र सक्षम बनाउँदै राष्ट्र निर्माणमा वित्तीय क्षेत्रबाट पुऱ्याएको अतुलनीय योगदानको स्मरण गर्न चाहन्छ ।

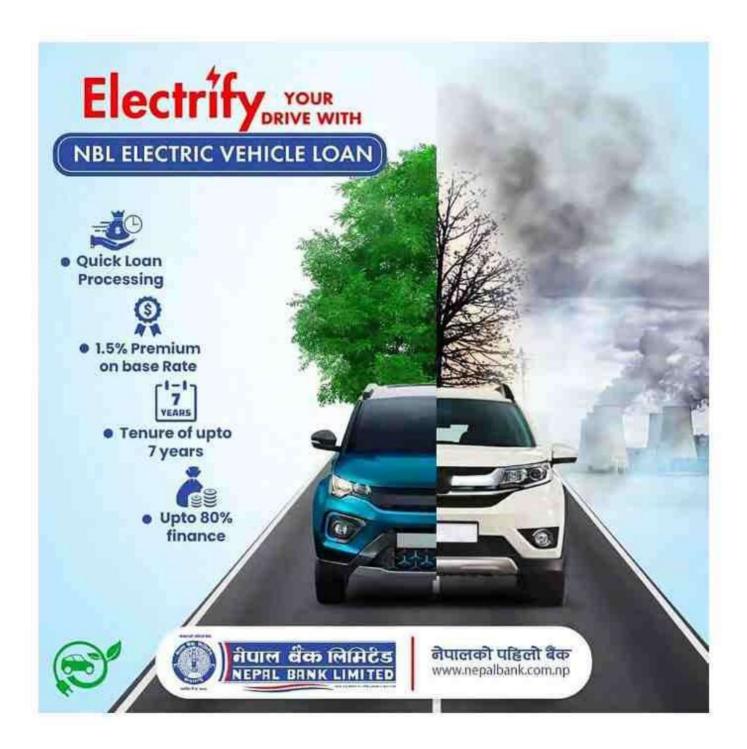

वि.सं. १९९४ सालमा बैंक स्थापना हुँदा रू. १४००/- बाट शुरू गरिएको पहिलो व्यावसायिक कर्जा कारोबार आर्थिक वर्ष २०८०/८१ को पहिलो त्रैयमाससम्म आइपुग्दा रू. १८६ अर्ब पुगेको छ भने सोही अवधीमा बैंकको कुल निक्षेप रू. २४२ अर्बको हाराहारी पुगेको छ । हाल करिब २५ लाख निक्षेपकर्ता ग्राहक तथा १ लाख ३६ हजार भन्दा बढी कर्जा ग्राहकलाई सेवा दिइरहेको बैंकका देशभर २२८ वटा शाखा, ४८ वटा एक्स्टेन्सन काउन्टर तथा २०४ वटा एटिएम स्टेशनहरू रहेका छन् । करिब ४० हजार क्यू.आर.कोड, ९५ हजारभन्दा बढी डिम्याट खाता, करिब ८ लाख मोबाईल बैंकिङ्ग प्रयोगकर्ता भएको यस बैंकले क्रेडिटकार्ड तथा कपोरेट पे-मोडल सेवा समेत प्रदान गर्दै आएको छ ।

हालै यस बैंकको प्रमुख कार्यकारी अधिकृतको जिम्मेवारी पाएकोले यस अवसरको पुरापुर सदुपयोग गर्दै बैंकको उन्नयनमा थप टेवा पुऱ्याउने प्रतिबद्धता व्यक्त गर्दछु । सञ्चालक समितिबाट आर्थिक वर्ष २०८०/८१ - २०८४/८५ का लागि स्वीकृत नयाँ रणनीतिक योजनामा लिइएका लक्ष्यहरूको प्राप्तिका लागि उपयुक्त कार्यदिशा तय गर्न शुरू भइसकेको जानकारी समेत गराउन चाहन्छु ।

यस वैंकलाई निरन्तर सहयोग पुऱ्याउने नेपाल सरकार, नेपाल राष्ट्र बैंक, अन्य नियामक निकायहरू, शेयरधनी महानुभावहरू, ग्राहकवर्ग तथा कर्मचारीहरू समक्ष आभार प्रकट गर्न चाहन्छु। सरोकारवालाहरूबाट विगतको जस्तै साथ र सहयोग आगामी दिनमा समेत अविछिन्न रूपमा रहनेछ भन्ने आशा र विश्वास समेत व्यक्त गर्दछ।

तिलक राज पाण्डेय प्रमुख कार्यकारी अधिकृत

सञ्चालक समितिको वार्षिक प्रतिवेदन आर्थिक वर्ष २०७५/८०

क. व्याजदर :

९१-दिने ट्रेजरी बिलको भारित औसत ब्याजदर २०८० आषाढमा ६.३५ प्रतिशत कायम भएको छ । अधिल्लो वर्षको सोही अवधिमा यस्तो ब्याजदर १०.६६ प्रतिशत रहेको थियो । वाणिज्य बैंकहरूबीचको अन्तर-बैंक कारोबारको भारित औसत ब्याजदर २०८० आषाढमा २.९८ प्रतिशत रहेको छ । यस्तो ब्याजदर २०७९ आषाढमा ६.९९ प्रतिशत रहेको थियो ।

वाणिज्य बैंकहरूको औसत आधार दर, निक्षेपको भारित औसत ब्याजदर तथा कर्जाको भारित औसत ब्याजदर २०८० आषाढमा क्रमशः १०.०३ प्रतिशत, ७.८६ प्रतिशत र १२.३० प्रतिशत रहेको छ । अधिल्लो वर्षको सोही अविधमा यस्तो ब्याजदर क्रमशः ९.५४ प्रतिशत, ७.४१ प्रतिशत र ११.६२ प्रतिशत रहेका थिए।

२. राष्ट्रिय तथा अन्तर्राष्ट्रिय परिस्थितिबाट कम्पनीको कारोबारलाई कुनै असर परेको भए सो कुरा :

क. अन्तर्रिष्ट्रिय अधिक स्थिति :

रुस-युक्रेन युद्धको प्रभाव स्वरूप पेट्रोलियम पदार्थ र खाद्यान्न लगायत दैनिक उपभोग्य वस्तुमा भएको मूल्य वृद्धिको उपजका कारण विश्वव्यापीरूपमा मुद्रास्फीति उच्च रहन पुग्यो । बढ्दो मुद्रास्फीतिलाई नियन्त्रण गर्न विश्वका अधिकांश मुलुकले अवलम्बन गरेको किसलो मौद्रिक नीतिले केही हदसम्म सहयोग पुऱ्याए तापनि उच्च बैंक ब्याजदरका कारण कर्जा विस्तारमा नकारात्मक प्रभाव पर्न गएको छ । फलस्वरूप सन् २०२१ मा उत्साहजनक रूपमा विस्तार भएको विश्व अर्थतन्त्रको वृद्धिद्धर सन् २०२२ मा ३.४ प्रतिशत रहेकोमा सन् २०२३ मा आइपुग्दा २.८ प्रतिशत मात्र हुने प्रक्षेपण अन्तर्राष्ट्रिय मुद्रा कोषको रहेको छ ।

पिछल्ला दिनहरूमा विश्व अर्थतन्त्रमा देखिएको उच्च मुद्रास्फीतिमा क्रमशः सुधार हुँदै गएको छ । यद्यपि, अधिकांश मुलुकमा मुद्रास्फीति अभौ लक्ष्यभन्दा माथि रहेको, बढ्दो राजनैतिक तथा आर्थिक धुवीकरणका कारण इन्धनको मूल्यका साथै समग्र मूल्य स्थितिमा जोखिम कायमै रहेको हुँदा विश्वका धेरैजसो मुलुकहरूले अवलम्बन गर्दै आइरहेको कसिलो मौदिक नीतिको कार्यदिशाले आगामी दिनमा पनि निरन्तरता पाउने देखिन्छ।

ख, राष्ट्रिय आर्थिक स्थिति :

आर्थिक वर्ष २०७९/८० मा बाह्य क्षेत्र असन्तुलनलाई सम्बोधन गर्नका लागि अबलम्बन गरिएको आयात नियमनले वस्तु पैठारीमा कमी आए तापनि राजस्व असुलीमा भने प्रतिकृल प्रभाव पर्न गयो । चालु खर्चमा भएको बढोत्तरी तथा राजस्व असुलीमा आएको कमीको कारण स्रोत व्यवस्थापनमा कठिनाई उत्पन्न हुन पुगी आर्थिक गतिविधि अपेक्षाकृत रूपले विस्तार हुन सकेन। त्यस्तै, बढ्दो मुद्रास्फीतिलाई नियन्त्रण गर्न अवलम्बन गरिएको किसलो मौद्रिक नीतिका कारण बैंक ब्याजदर वृद्धि हुन पुग्यो। फलस्वरूप निजी क्षेत्रमा प्रवाह हुने कर्जामा कमी हुन गयो।

यद्यपि बाह्य क्षेत्रमा सन्तुलन कायम हुँदै गएको, शोधानान्तर स्थिति बचतमा रहेको, चालु खाता घाटामा उल्लेख्य सुधार भएको साथै विदेशी विनिमय सञ्चिति उल्लेखनीय रूपमा बढेको छ । वस्तु पैठारीमा गरिएको नियन्त्रण खुकुलो बनाएसँगै राजस्व सङ्कलनमा सुधारका संकेत देखिन थालेका छन् । बैंक ब्याजदर घट्दो क्रममा रहेको छ । पर्यटक आगमनमा निरन्तर सुधार हुँदै गएको छ ।

३. बैंकको विगत वर्षको कारीवारको सिंहाबलोकन :

Independent Auditor's Report

The Shareholders of Nepal Bank Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Nepal Bank Limited (the "Bank"), which comprise the statement of financial position as at Ashadh 31, 2080 (July 16, 2023), and the statement of profit or loss, statement of other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as at Ashadh 31, 2080 (July 16, 2023), and of its financial performance and its cash flows for the year then ended in accordance with Nepal Financial Reporting Standards.

Basis for opinion

We conducted our audit in accordance with Nepal Standards on Auditing (NSAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our Report. We are independent of the Bank in accordance with the ICAN's Handbook of Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to our audit of the financial statements in Nepal, and we have fulfilled our other ethical responsibilities in accordance with these requirements and ICAN's Handbook of Code of Ethics for Professional Accountants. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We draw attention to the following matters as reflected in Notes to the financial statements. Our opinion is not modified in respect of these matters.

- As included in Note 4.16 Other Assets of financial statements total net unreconciled inter-branch balance is NPR 1,096.75 million as of Ashadh 31, 2080.
- The bank has not obtained confirmation regarding long pending receivables of government transactions of NPR 400.66 million and TU Pension reimbursable of NRs, 8.64 million outstanding as of Ashadh 31, 2080. The same is included in Note 4.16 of the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of the most significant in the audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Our audit approach regarding verification of Impairment of Loans and Advances 3. impairment of loans and advances included: As per NRB Directive 4, the bank shall measure impairment loss on loans and advances at the higher Review of the overdue status of loans and

S.N Key Audit Matters

- Amount derived as per norms prescribed by Nepal Rastra Bank for loan loss provisioning; and
- Amount determined as per para 5.5. of NFRS 9, read with carve out issued by Institute of Chartered Accountants of Nepal dated 18 July 2022, adopting Incurred Loss Model

As per the norms prescribed by NRB, the provision at a prescribed rate should be created on loans and advances based on the overdue status of loans and advances as well as the utilization status of the facility, status of security, borrower's whereabouts, etc.

As per NFRS 9 read with carve out issued by the Institute of Chartered Accountants of Nepal dated 18 July 2022, impairment of loans and advances should be made on an individual impairment basis for loans and advances that are individually significant and collective impairment basis for homogeneous groups of loans that are not considered individually significant.

On individual impairment, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows. Under collective impairment, the loss is determined after taking into account the Historical Loss Experience in portfolios of similar credit risk and Management's experienced judgment as to whether current economic and credit conditions are such that the actual level of inherent losses at the reporting date is like to be greater or less than that suggested by historical experience.

Given the fact that impairment of loans and advances under incurred loss model requires assessment of future cash flows as well as historical loss experiences of portfolios. Further, impairment of loans and advances under NRB norms for loan loss provisioning will require assessment of the overdue status of loans and advances and proper utilization of loans for the intended purposes. Hence, the assessment of the availability and accuracy of required data for impairment of loans and advances under incurred loss model as well as NRB provisioning norms are regarded as key audit matters.

4. Information Technology General Controls

IT controls with respect to recording transactions, generating various reports in compliance with NRB guidelines, and other compliances with regulators are an important part of the process. Such reporting is highly dependent on the effective working of Core Banking Software and other allied systems.

We have considered this a key audit matter as any control lapses, validation failures, incorrect input data, and wrong extraction of data may result in wrong reporting of data to the management, shareholders, and regulators Auditor's Response

advances by obtaining data from the system and matching the same with the NRH 2.2 report.

- b. Sample credit files were reviewed, among other things, from the perspective of the utilization of loans and advances for the intended purpose by way of scrutiny of financial statements, account movement, account turnover, etc.
- c. Expected future eash flows from the individually significant loans and advances with an indication of impairment are assessed on the basis of the realizable value of collateral securities based on management estimate.
- d. Grouping of homogeneous groups of loans was assessed on the basis of the nature and purpose of loans and data of historical loss experience in portfolios are assessed on the basis of past due data from the system as well as data of loan loss provisions of the defined group in the past.

Our audit approach regarding the Information Technology of the bank is based upon the Information Technology Guidelines 2012 issued by NRB and it included:

- Understanding the coding system adopted by the bank for various categories of customers
- b. Understanding the feeding of the data in the system and going through the extraction of the financial information and statements from the IT system in the bank
- c. Checking of the user requirements for any changes in the regulations/ policy of the bank
- d. Reviewed the reports generated by the system on a sample basis. We verified the interest income and expense booking

Information Other than Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Management Report, Report of the Director's Report, and Chairman's Statement but does not include the financial statements and our auditor's report thereon. Such information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read such other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibility of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Nepal Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern busis of accounting unless management either intends to liquidate the Bank or to cease operations or has no realistic alternative but to do so.

Those charged with Governance are responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with NSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with NSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or
 error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is
 sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
 misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
 collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purposes of expressing an opinion on the
 effectiveness of the Bank's internal control.

 Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and edited disclosures made by the management.

• Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on requirements of Banks and Financial Institutions Act, 2073, and Company Act, 2063

We have obtained satisfactory information and explanations asked for, which to the best of our knowledge and belief were necessary for the purpose of our audit; the returns received from the branch offices of the bank, though the statements are independently not audited, were adequate for the purpose of the audit; the financial statements including the statement of financial position, statement of profit or loss, statement of comprehensive income, statement of changes in equity, statement of cash flows, notes to the financial statements including a summary of significant accounting policies have been prepared in all material respect in accordance with the provisions of the Company Act, 2063, and they are in agreement with the books of accounts of the Bank; and the accounts and records of the Bank are properly maintained in accordance with the prevailing laws.

To the best of our information and according to the explanations given to us, in the course of our audit, we observed that the loans have been written off as specified; the business of the Bank was conducted satisfactorily, and the Bank's transactions were found to be within the scope of its authority. We did not come across cases of accounting-related fraud and cases where the board of directors or any director or any office bearer of the Bank has acted contrary to the provisions of law or caused loss or damage to the Bank or committed any misappropriation of the funds of Bank.

Notes to the Financial Statements

For the Year ended 31st Ashad 2080 (16 July 2023)

1 Reporting Entity

Nepal Bank Limited ('the Bank') is a public company incorporated under the Companies Act, 2063 and licensed by Nepal Rastra Bank to conduct banking transaction as a "A" Class Financial Institution under the Bank and Financial Institution Act, 2073. The Bank has its Corporate Office at Dharmapath, Kathmandu. Nepal Bank Limited, the first bank of Nepal was established in November 15, 1937 A.D (Kartik, 30, 1994). It was formed under the principle of Joint venture (Joint venture between Government & general public). The bank has been providing banking through its branch offices in the different geographical locations of the country. Nepal Bank Limited has the following objectives:

- Deliver robust and ethical banking services and contributing to the economic development of Nepal.
- · Focus on increasing the customer base and market share.
- · Maximize the potential/efficiency of bank's staff.
- · Focus on minimizing the risk associated with the business.
- · Focus on providing the world class business solutions.
- · Focus on increasing the sustainable profit.

Authorized capital of the Bank is NPR. 15,000,000,000 (150,000,000 shares of NPR 100 each) out of which Issued and Paid-up capital is NPR. 14,694,022,928 (146,940,229.28 shares of NPR.100 each). The shareholder composition of the Bank (as of 2080-03-31) is as follows.

S.N.	Ownership	Percent
1	Government of Nepal	51%
2	General Public	49%
	Total	100%

2 Basis of Preparation

The financial statements of the Bank have been prepared on accrual basis of accounting except the Cash flow information which is prepared, on a cash basis, using the direct method. The interest income is recognized on effective interest rate method as allowed by carve-outs on NFRS.

The financial statements comprise the Statement of Financial Position, Statement of Profit or Loss and Statement of Other Comprehensive Income shown in two separate statement, the Statement of Changes in Equity, the Statement of Cash Flows and the Notes to the Financial Statements. The significant accounting policies applied in the preparation of financial statements are set out below in point number 3. These policies are consistently applied to all the years presented, except for the changes in accounting policies disclosed specifically.

2.1 Statement of compliance

The financial statements have been prepared in accordance with Nepal Financial Reporting Standards (NFRS) adopted by the Accounting Standards Board (ASB) of Nepal.

The financial statements have been prepared on the going-concern basis.

The Bank presents its statement of financial position broadly in order of liquidity as per the format specified in directive 4 of unified directive 2080 issued by NRB.

2.2 Reporting period and approval of financial statements

Reporting Period is a period from the first day of Shrawan (mid-July) of any year to the last day of Ashad (mid-July) of the next year as per Nepalese calendar.

The current year period refers to 1st Shrawan 2079 to 31st Ashad 2080 as per Nepalese Calendar corresponding to 17th July 2022 to 16th July 2023 as per English Calendar and corresponding previous year period is 1st Shrawan 2078 to 32th Ashad 2079 as per Nepalese Calendar corresponding to 16th July 2021 to 16th July 2022 as per English calendar.

Particulars	Nepalese Calendar	English Calendar
Current Year	2079/80	2022/23
Previous Year	2078/79	2021/22
	1 st Shrawan 2079 to	17th July 2022 to
Current Year Period	31st Ashad 2080	16 th July 2023
	1 st Shrawan 2078 to	16th July 2021 to
Previous Year Period	32nd Ashad 2079	16th July 2022

The Financial Statements were authorized for issue by the Board of Directors on 2080/09/04. The Bank prepared its financial statements in accordance with the requirements of Nepal Financial Reporting Standards.

2.3 Functional and presentation currency

The financial statements are presented in Nepalese Currency (NPR) (rounded to the nearest Rupee unless otherwise stated), which is the company's functional currency. The Bank determines the functional currency and items included in the financial statements are measured using that functional currency.

2.4 Use of Estimates, assumptions and judgments

The preparation of the Bank's financial statements requires management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable estimates and underlying assumptions are reviewed on an ongoing basis.

Information about assumptions, estimates and judgement used in preparation of financial statements for 2079/80 that have a significant risk of resulting in a material adjustment within the next financial year are:

- Key assumptions used in discounted cash flow projections.
- Measurement of defined benefit obligations.
- Provisions, commitments and contingencies.
- Determination of net realizable value:
- · Determination of useful life of the property, plants and equipment.
- Assessment of the Bank's ability to continue as going concern.
- Determination of fair value of financial instruments; and property and equipment.
- · Impairment of financial and non-financial assets.
- · Assessment of current as well as deferred tax.

2.5 Changes in Accounting policies

The Company has consistently applied the accounting policies to all periods presented in these financial statements except for new or revised statements and interpretations implemented during the year. The nature and effect of new standards and interpretations are discussed in note that follows.

2.6 New standards in issue but not yet effective

A number of new standards and amendments to the existing standards and interpretations have been issued by IASB after the pronouncements of NFRS with varying effective dates. Those become applicable when ASB Nepal incorporates them within NFRS.

2.7 New Standards and interpretation not adapted

All Nepal Accounting Standards and Nepal Financial Reporting Standards and other interpretation issued by ASB of Nepal have been adapted while preparing financial statements.

2.8 Discounting

Non-current assets and liabilities are discounted where discounting is material. Interest income and expenses have been recognised on unwinding of financial assets and liabilities respectively.

2.9 Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position, only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the assets and settle the liabilities simultaneously. Income and expenses are not offset in the Statement of Profit or Loss, unless required or permitted by Nepalese Financial Reporting Standards or Interpretation (issued by the International Financial Reporting Interpretations Committee (IFRIC) and Standard Interpretations Committee (SIC)) and as specifically disclosed in the Significant Accounting Policies of the Bank.

2.10 Materiality and Aggregation

Each material class of similar items is presented separately in the Financial Statements. Items of dissimilar nature or function are presented separately, unless they are immaterial as permitted by the Nepal Accounting Standard – NAS 1 on 'Presentation of Financial Statements'.

Notes to the Financial Statements are presented in a systematic manner which ensures the understandability and comparability of Financial Statements of the bank. Understandability of the Financial Statements is not compromised by obscuring material information with immaterial information or by aggregating material items that have different natures or functions.

3 Significant Accounting Policies

The principal accounting policies applied by the Bank in the preparation of these financial statements are presented below. These policies have been consistently applied to all the years presented unless stated otherwise.

3.1 Basis of Measurement

The financial statements are prepared on the historical-cost basis except for the following material items in the statement of financial position:

- Investment property is measured initially at cost and subsequently at Fair value.
- Liabilities for cash-settled, share-based-payment arrangements are measured at fair value.

- · Derivative financial instruments are measured at fair value.
- · Defined benefit schemes, surpluses and deficits are measured at fair value.
- · Impairment of financial asset is measured at fair value and related disposal cost.

Estimates and underlying assumptions are reviewed on an ongoing basis and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results could differ from those estimates. The estimates and judgements used in the preparation of the financial statements are continuously evaluated by the Bank. Any revisions to accounting estimates are recognised prospectively in the period in which the estimates are revised and in the future periods. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in notes that follow.

3.2 Basis of consolidation

The Bank does not have any subsidiaries or special purpose entities over which it exercises control. Hence, only standalone financial statement is prepared.

3.3 Cash and cash equivalent

Cash and cash equivalents include cash at vault and money at call and short notice, unrestricted balances with NRB, which are subject to an insignificant risk of changes in value. Cash and Cash equivalent are measured at amortized cost in the statement of financial position.

Statement of Cash Flows has been prepared by using the 'Direct Method' in accordance with NAS 07-Statement of Cash Flows.

3.4 Financial assets and financial liabilities

Recognition

The Bank initially recognizes a financial asset or a financial liability in its statement of financial position when, and only when, it becomes party to the contractual provisions of the instrument. The Bank initially recognize loans and advances, deposits, and debt securities/ subordinated liabilities issued on the date that they are originated which is the date that the Bank becomes party to the contractual provisions of the instruments. Investments in equity instruments, bonds, debenture, Government securities, NRB bond or deposit auction, reverse repos, outright purchase are recognized on trade date at which the Bank commits to purchase/acquire the financial assets. Regular way purchase and sale of financial assets are recognized on trade date. All financial assets and liabilities are initially recognised at their cost value and are subsequently presented as per NFRS based on the respective classification.

Classification

Financial Assets

The Bank classifies the financial assets as subsequently measured at amortized cost or fair value on the basis of the Bank's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The two classes of financial assets are as follows:

Financial assets measured at amortized cost

The Bank classifies a financial asset measured at amortized cost if both of the following conditions are met:

- The asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows and
- b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

2. Financial asset measured at fair value

Financial assets other than those measured at amortized cost are measured at fair value. Financial assets measured at fair value are further classified into two categories as below:

a) Financial assets at fair value through profit or loss

Financial assets are classified as fair value through profit or loss (FVTPL) if they are held for trading or are designated at fair value through profit or loss. Upon initial recognition, transaction costs are directly attributable to the acquisition are recognized in profit or loss as incurred. Such assets are subsequently measured at fair value and changes in fair value are recognized in Statement of Profit or Loss.

b) Financial assets at fair value through other comprehensive income

Investment in an equity instrument that is not held for trading and at the initial recognition, the Bank makes an irrevocable election that the subsequent changes in fair value of the instrument is to be recognized in other comprehensive income are classified as financial assets at fair value though other comprehensive income. Such assets are subsequently measured at fair value and changes in fair value are recognized in other comprehensive income.

Financial Liabilities

The Bank classifies the financial liabilities as follows:

a) Financial liabilities at fair value through profit or loss

Financial liabilities are classified as fair value through profit or loss (FVTPL) if they are held for trading or are designated at fair value through profit or loss. Upon initial recognition, transaction cost is directly attributable to the acquisition are recognized in Statement of Profit or Loss as incurred. Subsequent changes in fair value is recognized at profit or loss

b) Financial liabilities measured at amortized cost

All financial liabilities other than measured at fair value though profit or loss are classified as subsequently measured at amortized cost using effective interest method.

Measurement

Financial assets at FVTOCI

On initial recognition, the Bank can make an irrevocable election (on an instrument-by instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Fair Value Reserve'. The cumulative gain or loss is not reclassified to Statement of Profit or Loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the bank manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Dividends on these investments in equity instruments are recognised in Statement of Profit or Loss when the Bank's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment

and the amount of dividend can be measured reliably. Dividends recognised in Statement of Profit or Loss are included in the 'Net Trading Income' line item.

Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Bank irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in Statement of Profit or Loss. The net gain or loss recognised in Statement of Profit or Loss incorporates any dividend or interest earned on the financial asset and is included in the 'Net Trading Income' line item. Dividend on financial assets at FVTPL is recognised when the Bank's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or is designated as at FVTPL.

A financial liability is classified as held for trading if:

- · it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Bank manages together and has a recent actual pattern of short-term profit-taking; or
- · it is a derivative that is not designated and effective as a hedging instrument

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a Bank of financial assets or financial liabilities or both, which is managed
 and its performance is evaluated on a fair value basis, in accordance with the Bank's documented risk
 management or investment strategy, and information about the Bank is provided internally on that basis;
 or
- it forms part of a contract containing one or more embedded derivatives, and NFRS 9 permits the entire combined contract to be designated as at FVTPL in accordance with NFRS 9

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in Statement of Profit or Loss. The net gain or loss recognized in Statement of Profit or Loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognised in Statement of Profit or Loss. The remaining amount of change in the fair value of liability is always recognised in Statement of Profit or Loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to Statement of Profit or Loss.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Interest Expenses' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

De-recognition

i. De-recognition of financial assets

The Bank derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Bank neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset.

Any interest in such transferred financial assets that qualify for de-recognition that is created or retained by the Bank is recognized as a separate asset or liability. On de-recognition of a financial asset, the difference between the carrying amount of the asset, and the sum of

- (i) The consideration received and
- (ii) Any cumulative gain or loss that had been recognized in other comprehensive income is recognized in retained earnings.

The Bank enters into transactions whereby it transfers assets recognized on its Statement of Financial Position, but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. If all or substantially all risks and rewards are retained, then the transferred assets are not derecognized. Transfers of assets with retention of all or substantially all risks and rewards include, for example repurchase transactions.

ii. De-recognition of financial liabilities

Afinancial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognized in Statement of Profit or Loss.

Determination of fair value

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Bank has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Bank measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. If there is no quoted price in an active market, then the Bank uses valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The fair value measurement hierarchy is as follows:

Level 1 fair value measurements are those derived from unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 valuations are those with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

Level 3 portfolios are those where there are unobservable inputs of the instruments. The inputs are not based on observable market data.

The best evidence of the fair value of a financial instrument at initial recognition is normally the transaction price i.e. the fair value of the consideration given or received. If the Bank determines that the fair value at initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability (Level 01 valuation) nor based on a valuation technique that uses only data from observable markets (Level 02 valuation), then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value at initial recognition and the transaction price. Subsequently, that difference is recognized in profit or loss on an appropriate basis over the life of the instrument but not later than when the valuation is wholly supported by observable market data or the transaction is closed out. In case the fair value is evidenced by a quoted price in an active market for an identical asset or liability (Level 01 valuation), the difference between the transaction price and fair value is recognized in profit or loss immediately.

Impairment

At each reporting date, the Bank assesses whether there is objective evidence that a financial asset or group of financial assets not carried at fair value through profit or loss are impaired. A financial asset or a group of financial assets is impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the asset(s), and that the loss event has an impact on the future cash flows of the asset(s) that can be estimated reliably.

Objective evidence that financial assets are impaired can include significant financial difficulty of the borrower or issuer, default or delinquency by a borrower, restructuring of a loan or advance by the Bank on terms that the Bank would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security, or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the group, or economic conditions that correlate with defaults in the group. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

In case of financial difficulty of the borrower, the Bank considers to restructure loans rather than take possession of collateral. This may involve extending the payment arrangements and agreement of new loan conditions. Once the terms have been renegotiated, any impairment is measured using the EIR method and the loan is no longer considered past due. Management continually reviews renegotiated loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan's original EIR.

Impairment of financial assets measured at amortized cost

The Bank considers evidence of impairment for loans and advances measured at amortized cost at both specific asset and collective level. The Bank first assesses individually whether objective evidence of impairment exists for financial assets that are individually significant and that are not individually significant are assessed on collectively.

If there is objective evidence on that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognized in profit or loss. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Impairment of loans and advances portfolios are based on the judgments in past experience of portfolio behaviour. In assessing collective impairment, the Bank uses historical trends of the probability of default, the timing of recoveries and the amount of loss incurred, adjusted for management's judgment as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends. Default rates, loss rates and the expected timing of future recoveries are regularly benchmarked against actual outcomes to ensure that they remain appropriate.

Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Bank. If in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a write off is later recovered, the recovery is recognized in the 'Non-operating income'.

3.5 Trading assets

Interest income on all trading assets are considered to be incidental to the Bank's trading operations and are presented together with all other changes in fair value of trading assets and liabilities in net trading income.

Interest expense on all trading liabilities are considered to be incidental to the Bank's trading operations and are presented together with all other changes in fair value of trading assets and liabilities in net trading income.

3.6 Derivatives assets and derivative liabilities

For designated and qualifying fair value hedges, the cumulative change in the fair value of a hedging derivative is recognised in the Statement of Profit or loss in Net trading income. Meanwhile, the cumulative change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item in the statement of financial position and is also recognised in the Statement of Profit or loss in Net trading income.

If the hedging instrument expires or is sold, terminated or exercised, or where the hedge no longer meets the criteria for hedge accounting, the hedge relationship is discontinued prospectively. For hedged items

recorded at amortised cost, the difference between the carrying value of the hedged item on termination and the face value is amortised over the remaining term of the original hedge using the recalculated EIR method. If the hedged item is derecognised, the unamortised fair value adjustment is recognised immediately in the Statement of Profit or loss.

3.7 Property and Equipment

a) Recognition and Measurement

Property and Equipment are recognized if it is probable that future economic benefits associated with the assets will flow to the Bank and the cost of the asset can be reliably measured. The cost includes expenditures that are directly attributable to the acquisition of the assets. Cost of self-constructed assets includes followings:

- · Cost of materials and direct labour;
- Any other cost directly attributable to bringing the assets to the working condition for their intended use;
 and
- Capitalized borrowing cost

Property and equipment are measured at cost (for land using deemed cost at on the transition date) less accumulated depreciation and accumulated impairment loss if any. Neither class of the property and equipment are measured at revaluation model nor is their fair value measured at the reporting date.

Subsequent expenditure is capitalized if it is probable that the future economic benefits from the expenditure will flow to the entity. Ongoing repairs and maintenance to keep the assets in working condition are expensed as incurred.

Any gain or losses on de-recognition of an item of property and equipment is recognized in profit or loss.

b) Capital work in progress

Assets in the course of construction are capitalised in the assets under capital work in progress account (CWIP). At the point when an asset is capable of operating at management's intended use, the cost of construction is transferred to the appropriate category of property and equipment and depreciation commences. Where an obligation (legal or constructive) exists to dismantle or remove an asset or restore a site to its former condition at the end of its useful life, the present value of the estimated cost of dismantling, removing or restoring the site is capitalized along with the cost of acquisition or construction upon completion and a corresponding liability is recognized.

c) Depreciation

Property and equipment's are depreciated from the date they are available for use on property on written down value method over estimated useful lives as determined by the Management. Depreciation is recognized in profit or loss. Land is not depreciated. Charging of depreciation is ceased from the earlier of the date from which the asset is classified as held for sale or is derecognized.

The estimated useful lives of significant items of property and equipment for current year and comparative periods are as follows:

Class of Assets	Useful Life
Building	20 years
Leasehold Properties	As per lease agreement (maximum to 10 years)
Computer and Accessories	4 years
Vehicles	5 years
Furniture, Fixture & Equipment	4 years
Other Assets	6.66 years
	And the state of t

Assets costing less than NPR. 2,000 are fully expensed in the year of purchase.

3.8 Goodwill / Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash generating unit level. Such intangibles are not amortised. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is made on a prospective basis.

Intangible assets with finite useful lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit or loss.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Certain computer software costs are capitalized and recognised as intangible assets based on materiality, accounting prudence and significant benefits expected to flow therefrom for a period longer than one year.

The estimated useful lives of significant items of intangible assets for current year and comparative periods are as follows:

Class of Assets	Useful Life	
Computer software	5 years	

3.9 Investment Property

Investment property is the land or building or both held either for rental income or for capital appreciation or for both, but not for sale in ordinary course of business and owner-occupied property. The Bank holds investment property as non-banking assets that has been acquired through the enforcement of security over the loan and advances.

Non-banking assets (only land and building) are initially recognised at cost. Subsequent to initial recognition the bank has chosen to apply the cost model allowed by NAS 40- "Investment Property" and since it is not intended for owner -occupied use, a depreciation charge is not raised.

Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred. If the recognition criteria are met; and excludes the costs of day-to-day servicing of an investment property. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the reporting date. Gains or losses arising from changes in the fair values of investment properties are included in the Statement of Profit or loss in the year in which they arise.

Investment properties are derecognised either when they have been disposed of, or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the Statement of Profit or loss in the year of retirement or disposal.

3.10 Income tax

The Company is subject to tax laws of Nepal. Income Taxes have been calculated as per the provisions of the Income Tax Act, 2058. Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax law carry-forwards become deductible. The Bank considers the expected reversal of deferred tax liabilities and projected future taxable income making this assessment. The amount of the deferred tax assets considered realisable, however, could be reduced in the near term if estimates of future taxable income during the carry-forward period are reduced.

Income tax comprises current and deferred tax. Income tax expense is recognised in the Statement of Profit or Loss except to the extent it relates to items directly recognised in equity or in other comprehensive income.

Current Tax

Current tax is the amount of tax payable based on the taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit or Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible.

Current income tax assets and liabilities for the current period are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date in the countries where the Bank operates and generates taxable income. Current income tax assets and liabilities also include adjustments for tax expected to be payable or recoverable in respect of previous periods.

Deferred Tax

Deferred tax is recognised on temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is determined using tax rates (and laws) enacted or substantively enacted at the reporting date and that are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled. Deferred tax assets are reviewed at each reporting date and reversed if it is no longer probable that the related tax benefits will be realised. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Bank expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- i. Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- ii. In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

Deferred tax relating to items recognised in OCI is recognised in OCI. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

3.11 Deposits, debt securities issued and subordinated liabilities

Bank deposits consist of money placed into the Bank by its customers NPR. These deposits are made to deposit accounts such as fixed deposit accounts, savings accounts, margin deposit accounts, call deposit accounts and current accounts. Details and further disclosures about deposits have been explained in Note that follows.

3.12 Provisions

Provisions are recognised when the bank has a present legal or constructive obligation as a result of a past event, when it is probable that an outflow of resources will be required to settle the obligation and when the amount can be reliably estimated.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, considering the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

A disclosure for contingent liabilities is made where there is:

- a possible obligation that arises from past events and whose existence will be confirmed only by the
 occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the
 entity; or
- · present obligation that arises from past events but is not recognized because:
 - it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each reporting period.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

3.13 Revenue Recognition

Revenue comprises of interest income, fees and commission, foreign exchange income, cards income, Assets disposal income etc. Revenue is recognized to the extent it is probable that the economic benefits

will flow to the Bank and the revenue can be reliably measured. The bank applies NFRS 15 "Revenue from Contracts with Customers" in the accounting of revenue, unless otherwise stated. Revenue is not recognized during the period in which its recoverability of income is not probable. The bases of incomes recognition are as below:

Interest income

- i. Interest income are recognised under accrual basis (using the effective interest rate method) in the profit or loss for all interest-bearing financial assets measured at amortized cost. Effective Interest Rate (EIR) is the rate that exactly discounts estimated future cash receipts or cash payments through the expected life of financial asset to the net carrying amount of the financial asset. Effective Interest Rate method is a method of calculating the amortized cost of a financial asset and of allocating the interest income over the relevant period.
- ii. The Bank has adopted the alternative treatment in calculation of EIR as provided by the Carve Out in NFRS implementation. The Bank has excluded the full amount of upfront loan management fees or commission received on loans and advances in the calculation of effective interest rate due to impracticability.
- iii. Nepal Rastra Bank has issued "Guideline on Recognition of Interest Income 2019" vide circular no. Bai. Bi. Ni.Bi./Niti/Paripatra/KaKhaGa/01/076/77. This document has provided guidance on application of judgments in assessing the collectability of interest on loans and advances and determining whether there is a need to recognize interest suspense or to cease interest accrual. The bank has implemented this guideline and recognized interest suspense and stopped interest accrual in qualifying accounts while determining the interest income for the current reporting period.

Interest income presented in Statement of Profit or Loss includes:

- Interest income on financial assets measured at amortized cost calculated on an effective interest rate method. These financial assets include loans and advances including staff loans, investment in government securities, investment in corporate bonds, investment in NRB Bond and deposit instruments, reverse repos, inter banking lending etc.
- Interest on investment securities measured at amortized cost, calculated on effective interest rate.
- Income on discounted instruments like bills purchased, documents negotiation is recognized over the period of discounting on accrual basis using effective interest rate.

Interest income on all trading assets are considered to be incidental to the Bank's trading operations and are presented together with all other changes in fair value of trading assets and liabilities in net trading income.

NFRS Requirement

NFRS requires interest income to be recognised using the effective interest method, except for those classified at fair value through profit or loss. The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating the interest income over the expected life of the financial instrument. The effective interest rate is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset or financial liability. The effective interest rate is calculated on initial recognition of the financial asset or liability by estimating the future cash flows after considering all the contractual terms of the instrument but not future credit losses. The calculation includes all amounts expected to be paid or received by the Bank including expected early redemption fees and related penalties and premiums and discounts that are an integral part of the overall return. Direct incremental transaction costs related to the acquisition, issue or disposal of financial instruments is also taken into account in the calculation. Once financial asset or a group of similar financial assets has been written down as a result of

an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Carve-out for Effective Interest Rate (EIR) method

The bank has availed the carve-out for interest income recognition by applying the rate implicit on individual products. Considering the amount of renewal and initial service fees that the bank charges on the loans and advances (which is in negligible figure), applying EIR method would not be practical and cost effective. Hence, initial service fees and renewal charges have been recognised during the period when such income accrue rather than being included within the component of interest income under EIR method.

Fee and commission income

Fees and commission income that are integral to the effective interest rate on a financial asset are included in measurement of effective interest rate. Other fees and commission income including management fee, service charges, syndication fee, forex transaction commission, commission of issue of letter of credit and guarantee are recognized as the related services are performed.

Dividend income

Dividend on investment in resident company is recognized when the right to receive payment is established. Dividend income are presented in net trading income, net income from other financial instruments at fair value through profit or loss or other revenue based on the underlying classification of the equity instruments.

Net trading income

Results arising from trading activities include all gains and losses from changes in fair value and related interest income or expense and dividends for financial assets and financial liabilities held for trading. This includes any ineffectiveness recorded in hedging transactions. Net trading income also includes gain on foreign exchange transaction.

Net income from other financial instrument at fair value through Profit or Loss

Financial assets and financial liabilities classified in this category are those that have been designated by management upon initial recognition. Management may only designate an instrument at fair value through profit or loss upon initial recognition when the following criteria are met, and designation is determined on an instrument-by-instrument basis:

- The designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis.
- The assets and liabilities are part of a group of financial assets, financial liabilities or both, which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy.
- The financial instrument contains one or more embedded derivatives, which significantly modify the cash flows that would otherwise be required by the contract.

Financial assets and financial liabilities at fair value through profit or loss are recorded in the statement of financial position at fair value. Changes in fair value are recorded in Net gain or loss on financial assets and liabilities designated at fair value through profit or loss is recognised in statement of Profit or Loss. Interest earned or incurred is accrued in Interest income or Interest expense, respectively, using the effective interest rate (EIR), while dividend income is recorded in other operating income when the right to the payment has been established.

3.14 Interest expense

Interest expense on all financial liabilities including deposits are recognized in profit or loss using effective interest rate method. Interest expense on all trading liabilities are considered to be incidental to the Bank's trading operations and are presented together with all other changes in fair value of trading assets and liabilities in net trading income.

3.15 Employees Benefits

a) Short Term Employee Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is also recognized for the amount expected to be paid as bonus as required by the prevailing Bonus Act. Obligations under short term employee benefits results based on past service provided by the employee when the obligation can be estimated reliably.

Short-term employee benefits include all the following items (if payable within 12 months after the end of the reporting period):

- · wages, salaries and social security contributions;
- · paid annual leave and paid sick leave;
- · non-monetary benefits

b) Post-Employment Benefit Plan

Post-employment benefit plan includes followings:

i. Defined Contribution Plan

A defined contribution plan is a post-employment benefit plan under which an entity pays a fixed contribution to a separate entity and has no legal or constructive obligation to pay future amounts. Obligations for contributions to defined contribution plans are recognized as personnel expense in profit or loss in the periods during which the related service are rendered by employees. Pre-paid contributions are recognized as an asset to the extent that cash refund or reduction in future payments is available. Contributions to a defined contribution plan being due for more than 12 months after the end of the period in which the employee render the service are discounted at their present value. The following are the defined contribution plan provided by the Bank to its employees:

a) Employees Provident Fund

In accordance with law, all employees of the Bank are entitled to receive benefits under the provident fund, a defined contribution plan in which both the employee and the Bank contribute monthly at a pre-determined rate (currently, 10% of the basic salary plus grades), Bank does not assume any future liability for provident fund benefits other than its annual contribution.

b) Contributory Gratuity Plan

With effective from 01/04/2079, contributory gratuity plan has been introduced in the bank for the new recruitments. As per the plan, both the employee and the bank contribute monthly at a pre-determined rate (currently, 6 % of the basic salary plus grades for permanent employee and 8.33 % of the basic salary for contract employee). Bank does not assume any future liability for such contributory plan other than its annual contribution.

ii. Defined Benefit Plan

The Bank provides Pension & Gratuity Plan, Retirement Plan and Leave Encashment Plan (in terms of Annual Leave and Sick Leave) as defined benefits to its employees. These benefits are post-employment

benefit plans and are paid based on length of service. These benefit plans are funded whereas the Bank makes earmark investment of these funds. The gratuity plan provides for lump sum payments to vested employees at retirement or upon death while in employment or on termination of employment for an amount equivalent defined days' eligible salary payable for each completed year of service.

The pension plan provides for lump sum payments to vested employees at retirement or equated payment till death of the employee (and half thereafter to the spouse of the employee). Further, employees of the Bank are entitled to avail Annual Leave and Sick Leave. The employees can carry forward the un-availed leave and are entitled to encash the cumulative leave at the time of the retirement. The obligation under these plans are calculated by a qualified actuary every year using projected unit credit method.

The following are the defined benefit plans provided by the Bank to its employees:

a) Gratuity (Other than Contributory Gratuity)

Bank provides for gratuity on accrual basis covering eligible employees in terms of Employee Service Byelaws of the Bank. The plan provides for lump sum payments to vested employees at retirement or upon death while in employment or on termination of employment for an amount equivalent defined days' eligible salary payable for each completed years of service. The Bank accounts for the liability for gratuity as per the actuarial valuation.

iii. Termination Benefits

Termination benefits are recognized as expense when the Bank is demonstrably committed, without realistic possibility of withdrawal, to a formal plan to provide termination benefits to employees as a result of an offer made to encourage voluntary redundancy. Termination benefits are recognized if the Banks made an offer for voluntary redundancy, it is probable that the offer will be accepted and the number of acceptances can be measured reliably. If the benefits are payable in more than 12 months after the reporting date, they are discounted to their present value.

iv. Other Long-Term Employee Benefits

Other employee benefits which are payable in more than 12 months after the reporting date which are not categorised under post-employment and termination benefits are categorized under Other Long-Term Employee Benefits.

c) Leave Salary

The employees of the Bank are entitled to carry forward a part of their unavailed/unutilized leave subject to a maximum limit. The employees can encash unavailed/unutilized leave partially in terms of Employee Service Byelaws of the Bank. The Bank accounts for the liability for accumulated leave as per the actuarial valuation.

3.16 Leases

The Bank as a Lessee:

NFRS 16 is first time adoption in Nepalese BFIs since 1st Shrawan 2078. Now, there is no longer distinction between operating lease and finance lease for lessee.

The leases are capitalised and presented on the statement of financial position as both assets, known as right of use (ROU) asset, and lease liabilities and expenses of depreciation and interest expense on the Statement of Profit or Loss.

Under NFRS 16, a lease is defined as a contract conveying an entity the right to utilize a specific asset for a period of time in exchange for consideration where right to substantially all economic benefits from the use of identified asset is established except short term lease and low value assets.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the implicit interest rate / incremental borrowing rate i.e. market rate.

Bank is presenting ROU under PPE, Lease liability under other liability, Depreciation of ROU under Depreciation and amortization and interest expenses on lease liability under heading Interest expenses.

The Bank as a lessor

Leases in which the Bank does not transfer substantially all of the risks and benefits of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same bases as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

3.17 Foreign Currency translation

The items included in the financial statements of the entity are measured using the functional currency of the Bank which Nepalese Rupees is using the exchange rates prevailing at the dates when the transactions were affected.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the both buying and selling rate of exchange at the financial statement date. Any resulting exchange differences are included in the "Other Operating Income" in statement of profit or loss.

Non-monetary assets and liabilities that are measured at historical cost in a foreign currency are translated into the functional currency using the rate of exchange at the date of initial transaction. Non-monetary item assets and liabilities measured at fair value in a foreign currency are translated into the functional currency using the rate of exchange at the date the fair value was determined.

Foreign exchange differences arising on settlement of monetary items is included in "Net Trading Income" in statement of profit or loss.

3.18 Financial guarantee and loan commitment

The Bank makes available to its customers guarantees that may require that the Bank makes payments on their behalf and enters into commitments to extend credit lines to secure their liquidity needs. Letters of credit and guarantees (including standby letters of credit) commit the Bank to make payments on behalf of customers in the event of a specific act, generally related to the import or export of goods. Such commitments expose the Bank to similar risks to loans and are mitigated by the same control processes and policies.

3.19 Share capital and reserves

The Bank classifies the capital instruments as equity instruments or financial liabilities in accordance with the substance with the contractual terms of the instruments. Equity is defined as residual interest in total assets of an entity after deducting all its liabilities. Common shares are classified as equity of the Bank and distributions thereon are presented in statement of changes in equity.

The Bank is required to maintain the capital adequacy ratio imposed by the regulator. The ratio is fixed at 11% for current year and the Bank has maintained the ratio equal to 13.74%.

Incremental costs directly attributable to issue of an equity instruments are deducted from the equity.

The reserves include retained earnings and other statutory reserves such as general reserve, exchange equalization reserve, regulatory reserve, fair value reserve, revaluation reserve and other reserves.

Regulatory reserve includes any amount derived as result of NFRS convergence with effect in retained earning computed as per NRB Directive No. 4.

3.20 Earnings per share including diluted

Basic earnings per share is computed by dividing the profit/ (loss) for the year by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit/ (loss) for the year as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date.

There have been no transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of the completion of these financial statements which would require the restatement of earnings per share.

3.21 Segment reporting

An operating segment is a component of the Bank that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relating to transactions with any of the Bank's other components, whose operating results are reviewed by the management to make decision about resource allocation to each segment and assess its performance. The Bank has classified four operating segments as Banking, Treasury, Remittance and Government Transaction.

4.10 Investment in Subsidiaries

There was no Investment by Bank in Subsidiaries during the reported period.

4.11 Investment in Associates

The bank has investment in both quoted and unquoted share of different associates.

An associate is an entity over which the investor has significant influence. A significant influence is the power to participate in the financial and operating policy decisions of the investee without the power to control or jointly control those policies. If an entity holds, directly or indirectly, 20 per cent or more of the voting power of the investee, it is presumed that the entity has significant influence, unless it can be clearly demonstrated that this is not the case.

Investments given below has been classified as investment in associate although holding in such entity are less than 20% because Bank has representative in the Board of Directors of the entity which is deemed as having significant influence. The bank has accounted investment in associates using Fair value Method under the Nepal Accounting Standards – NAS 28 on "Investments in Associates and Joint venture".

4.271 General Reserve

General Reserve is created as per Section 44 of the Banks and Financial Institutions Act 2073 equivalent to 20% of the net profit earned during the year until the reserve is twice the paid-up share capital of the Bank after which 10% of the net profit earned during the year shall be set aside as General Reserve.

Such reserve could not be expensed or transferred to other heads without prior approval of Nepal Rastra Bank.

4.27.2 Exchange Fluctuation Reserve Fund

Exchange Fluctuation Reserve is the reserve created as per Section 45 of the Banks and Financial Institutions Act 2073 equivalent to 25% of the foreign exchange gain realized on the translation of foreign currency to the reporting currency during the year other than Indian Rupees.

Such reserve could not be expensed or transferred to other heads without prior approval of Nepal Rastra Bank other than to set off revaluation loss incurred, if any during the year.

4.27.3 Fair Value Reserve

The fair value reserve comprises the cumulative net change in the fair value of financial assets that are measured at fair value and the changes in fair value is recognized in other comprehensive income, until the assets are derecognized. The cumulative amount of changes in fair value of those financial assets has been presented under this account head.

4.27.4 Assets Revaluation Reserve

Any reserve created from revaluation of assets (such as Property & Equipment, Intangible Assets, and Investment Property) has been presented under this heading. Revaluation reserves often serve as a cushion against unexpected losses but may not be fully available to absorb unexpected losses due to the subsequent deterioration in market values and tax consequences of revaluation.

4.27.5 Regulatory Reserve

The amount that is allocated from profit or retained earnings of the Bank to this reserve as per the Directive of NRB for the purpose of implementation of NFRSs and which has not been regarded as free for distribution of dividend (cash as well as bonus shares) has been presented under this account head. The amount allocated to this reserve includes interest income recognized but not received in cash, difference of loan loss provision as per NRB directive and impairment on loan and advance as per NFRSs (in case lower impairment is recognized under NFRSs), amount equals to deferred tax assets, amount of goodwill recognized under NFRSs etc.

4.27.6 Corporate Social Responsibility Fund

The fund created for the purpose of corporate social responsibility by allocating profit of 1% has been presented under this account head.

4.27.7 Other Reserve Fund

Any reserve created with specific or non-specific purpose (except stated in above) has been presented under this by disclosing accounting heads.

Capital Reserve: The capital reserve represents the amount of those reserves which are in nature of capital and which shall not be available for distribution of cash dividend. Amount under this heading includes reimbursement (NPR.259,735,644.00) received from Ministry of Finance, Nepal Government in relation to waiver of loan repayments of Small Framers and Cottage Entrepreneurs NPR. Such amount has been transferred based on directions received form such ministry during FY 2065/66.

Dividend Equalization Reserve: Dividend Equalization Reserve is maintained for the purpose of maintaining uniformity in dividend payment. Dividend may be distributed by debiting this account with the approval of the Board of Directors and endorsed by the General meeting.

Actuarial Reserve: Actuarial gain or loss that represents change in actuarial assumptions which is used to value employee obligations is presented under this heading.

Capital Adjustment Fund: Capital Adjustment Fund has been created in respect of increasing the capital base of the bank.

Contingent Reserve: Contingent Reserve has been established to address unexpected risks and contingencies that may adversely affect the bank's financial position.

Corporate Development Fund: The fund has been established to support various strategic initiatives of the bank aligned with the bank's growth objectives.

Employee Training Fund: The Fund has been created based on NRB directives and shall be utilized for the training and development of Bank's employees. NRB Directives require Banks and Financial Institutions to incur minimum three percentage of its total employee's salary and allowance expenses of previous year on training and development of their employees.

Debenture Redemption Reserve: NBL has issued debentures as an instrument to raise capital. As per NRB directive no. 16, Financial Institutions which have issued the debentures shall compulsorily create the debenture redemption reserve proportionately for the maturity term. Nepal Rastra Bank has exempted from creating the debenture redemption reserve on the year of issue and redemption of debenture. Based on such directives, debenture redemption reserve has been created and maintained.

Employee Welfare Fund: Employee welfare fund is established as per HR Byelaw of Bank to promote the welfare of employees. Each year one percent of Net profit is transferred into this fund.

The capital management approach of the Bank is driven by its desire to maintain a strong capital base to support the development of its business and to meet the regulatory capital requirements at all times.

As Capital is the centrepiece of the Bank's performance matrix, a sound capital management forms the very core of the overall performance landscape to ensure that the Bank delivers on its objective of maximizing the shareholder's value. The senior management of the Bank is engaged and responsible for prudent capital management at all times. In compliance with the regulatory requirement of increasing the capital base as prescribed by the Central Bank, the Bank is comfortable in meeting the minimum capital requirements and is strongly positioned to meet the performance benchmarks.

5.2.1 Qualitative Disclosure

Nepal Rastra Bank has directed the Banks to develop own internal policy, procedures and structures to manage all material risk inherent in business for assessing capital adequacy in relation to the risk profiles as well as strategies for maintaining capital levels. This includes basic requirements of having good governance, efficient process of managing all material risks and an effective regime for assessing and maintaining adequate capital. The Bank has various BODs approved risk management policies for proper governance. The Bank has developed a comprehensive ICAAP document which is subject to review every year. The ICAAP has two major components; first is an internal process to identify measure, manage and report risks to which the bank is exposed or could be exposed in the future; and second is an internal process to plan and manage a bank's capital so as to ensure adequate capital. The Bank prepares the ICAAP report annually complying with the NRB requirement. The report is reviewed and analysed by Risk Management Committee and Board. The report is prepared as per BASEL III norms considering various adverse scenarios. The Bank also conducts the stress testing on quarterly basis and is reviewed by senior management, Risk Management Committee and Board. The Bank in line with BASEL provisions and ICAAP document assesses risk exposures and allocated sufficient capital/cushion for perceived risks.

3. Risk Management Function

The Bank is exposed to various types of material risks including credit, market, liquidity, operational, legal, compliance and reputation risks. The objective of the risk management framework at the Bank is to ensure that various risks are understood, measured and monitored and that the policies and guidelines established to address these risks are strictly adhered to.

The Board of Directors has oversight on all the risks assumed by the bank. The Risk Management Committee a board level sub-committee has been established to facilitate & focused oversight of various risks. The said committee reviews the risk management policies and guidelines, the bank's compliance with risk management guidelines issued by NRB and status of implemented BASEL - III requirement by the bank.

The Bank has set up a strong control and monitoring environment for comprehensive risk management at all levels of operation by establishing an independent Risk Management Department which caters to the current banking requirement of properly identifying and monitoring the risks apparent and inherent in the business.

Measurement of Risks for Capital Adequacy Purpose:

Under Pillar 1 of the Unified NRB Directives, the bank currently follows Simplified Standardized Approach for Credit Risk, Basic Indicator Approach for Operational Risk and Net Open Position approach for Market risk.

A. Credit Risk:

Strategies and Process:

All credit related aspects are governed by Operation Manual-2 (Credit) and Credit Policy of NBL. These documents outline the type of products that can be offered, customer categories, credit approval process and limits. These documents are approved by the Board of Directors.

The Bank's main emphasis is on MSME credit. Different limits of lending power have been assigned at branch level, division, department head level and the credit committee level. Every aspect relating to credit such as procedure and documentation etc. are clearly defined in the Operation Manual -2 and the Credit Policy of the bank.

Pre-Sanction:

The branch managers have the authority to approve the credit within their permissible limits after due scrutiny of background of the promoter, nature of business, turnover in the account, other financial indicators, income, collateral and security. Loans above the authority of branch are recommended to head office for further decision.

Credit Risk Assessment Process:

Risk Management Department carries out a comprehensive credit risk assessment process that encompasses analysis of relevant quantitative and qualitative information to ascertain credit rating of the borrower. The credit rating process involves assessment of risk emanating from various sources such as market risk, management risk, environmental risk, financial risk and security risk taking into consideration as much as 30 sub-parameters for business lending and 20 sub parameters for retail lending under each of these categories. Credit thresholds have been set for forwarding the credit files for risk rating before they are submitted for approval in the credit committee by the concerned credit units.

Post Sanction Monitoring/ Follow up:

Concerned branches are required to obtain regular information of the business. In case of revolving loans, the drawing power is checked commensurate with the existing level of stocks and working capital checked

and verified at regular interval. The credit units at the Head Office are also required to prepare quarterly credit report to submit at higher level as a part of formal monitoring process.

B. Operation Risk:

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people or systems, or from external events. Operational risk is inherent in the bank's business activities.

The board level committees that undertake supervision and review of operational risk aspects are the Risk Management Committee and Audit Committee. The board and the risk committee review the operational risk level and the material operational risk exposure. The Audit committee supervises audit and compliance related aspects. Inspection and Internal Audit department on the other hand carries out audit according to the audit plan and reports findings to the Audit Committee.

Risk Arising from breakdown of Information and Operating System:

The bank has introduced new centralized software Pumori-IV and has improved in its MIS infrastructure in order to ensure the associated operational risks being brought down to an acceptably low level.

To safeguard the probable losses resulting from system failure or natural disaster, the bank has taken following policies to minimize the risk:

- a. Back up All types of back up of all balances and head office are taken at the end of the day. The bank has developed back up guidelines to manage the various types back up system.
- b. Disaster Recovery Site The bank has established a disaster recovery site at Bhairahawa, which is outside the Kathmandu valley considering the lower frequency of seismic activities.
- c. Validation of Entry and Password control There is a system of maker and checker for entry validation before posting. Access authority for data entry, update, modification and validation has been given on the basis of levels of staffs.
- d. Exception Reporting The system creates exception report as and when required.

Risk Arising from Procedural Lapses and Internal control:

The bank has defined procedure for each banking products and services in the Operation Manuals related to banking transactions. Internal circulars are issued whenever required. Reporting by branches is regular. Internal Audit of maximum branches is carried out each year.

Corporate Governance:

NRB Guidelines with respect to Corporate Governance are duly complied with. The bank has established a Governance Unit to manage corporate governance related issues.

C. Market Risk:

Investments

Currently, Bank has not made any investment for trading purpose. The investment in government securities have been made to hold till maturity. The investment in equity of listed institutions has been held as available for sale.

Foreign Exchange

The bank's policy is to maintain the net open position of convertible foreign currency where exchange rate risk persists in matching position.

D. Types of Eligible Credit Risk Mitigation used and benefits availed under CRM:

The eligible collateral taken as benefits under CRM are margin money deposited with the bank against off balance sheet exposures, Loan against Fixed deposits, Loan against Gold and Silver and Government Securities. Under this provision a total of NPR. 21,919,160,238.52 has been deducted from total credit risk as CRM.

5.12 Valuation Hierarchy

Following tables demonstrates the valuation hierarchy of Bank's Assets and Liabilities. This fair value may differ from the actual amount that may be received or paid on settlement, realization or maturity of those Financial Assets and Liabilities.

Fair Value of Financial Assets and Liabilities Measured at Fair Value

The fair value measurement hierarchy is as follows:

Level 1 fair value measurements are those derived from unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 valuations are those with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.

Level 3 portfolios are those where there are unobservable inputs of the instruments. The inputs are not based on observable market data.

5.13 Impairment of financial assets

At each reporting date, the Bank has assessed whether there exists objective evidence that a financial asset or group of financial assets not carried at fair value through profit or loss are impaired. A financial asset or a group of financial assets is impaired when objective evidence demonstrates that a loss event has occurred after the initial recognition of the assets, and that the loss event has an impact on the future cash flows of the assets that can be estimated reliably.

Objective evidence that financial assets are impaired can include significant financial difficulty of the borrower or issuer, default or definquency by a borrower, restructuring of a loan or advance by the Bank on terms that the Bank would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, the disappearance of an active market for a security, or other observable data relating to a group of assets such as adverse changes in the payment status of borrowers or issuers in the group, or economic conditions that correlate with defaults in the group. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is objective evidence of impairment.

In case of financial difficulty of the borrower, the Bank considers to restructure loans rather than take possession of collateral. This may involve extending the payment arrangements and agreement of new loan conditions. Once the terms have been renegotiated, any impairment is measured using the original EIR as calculated before the modification of terms and the loan is no longer considered past due. Management continually reviews renegotiated loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan's original EIR.

5.14 Use of Carve Outs for Financial Assets

a. For Impairment Calculation

An entity shall assess at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets measured at amortised cost is impaired. If any such evidence exists, the entity shall apply paragraph 63 of NAS 39: Financial Instruments: Recognition and Measurement, to determine the amount of any impairment loss unless the entity is bank or financial institutions registered as per Bank and Financial Institutions Act, 2073. Bank and Financial Institutions shall measure impairment loss on loan and advances as higher of amount derived as per prudential norms prescribed by Nepal Rastra Bank and amount determined as per paragraph 63. However, bank and financial institutions shall apply paragraph 63 of NAS 39: Financial Instruments: Recognition and Measurement to determine the amount of impairment loss on financial assets other than loan and advances.

The bank for the financial years 2079/80 has assessed the impairment under NFRS impairment model and

under NRB Directives. Since the impairments under NRB directives are more than under NFRS, the bank has recognised impairment calculated under NRB directives. Following table below depicts the calculation of impairment allowance as per NFRS and as per NRB Directives:
